Describe what your agent does so people and other agents know when to use it.

Description*

This workflow lets you input the ingredients you have on hand and instantly receives a list of matching recipes, which it then tailors by removing missing items, suggesting suitable substitutions, and adjusting portion sizes; it also provides clear, step-by-step cooking instructions along with dietary tips and allows you to ask follow-up questions or give feedback to improve future recommendations.

Describe your agent, including its purpose, tools, and agents, to help other agents and users know when to use it.

I have chicken, meat, sauce and bread

I know how to cook, need help? 7:53 PM | Show Reasoning

I'm excited to help you turn those pantry staples into a tasty Russian-style meal! 🍴

You mentioned you have:

- Chicken (or other meat)
- Sauce (unspecified)
- Bread

That gives us a solid base for a few classic Russian dishes. Here are the options that match your ingredients, plus a "almost there" suggestion if you'd like to add just one or two more items.

1 Chicken Kiev (Курицу́ Киев)

Rich, buttery chicken breast rolled in a crunchy coating – a true comfort-food favorite.

Why it fits:

- You have **chicken**.
- You can use your **sauce** as a quick herb-butter mixture (mix the sauce with minced garlic, dill, and a pinch of salt).
- The **bread** can be turned into breadcrumbs (julse it in a food processor or crush it by hand).
